

VIVEK GURAV

PROFILE

Motivated and detail-oriented MCA graduate with a strong foundation in frontend development and hands-on experience in Java Spring Boot, MySQL, and RESTful API integration. Skilled in building responsive and accessible web applications using HTML5, CSS, Bootstrap, and Angular. Successfully completed a Full Stack Development certification, demonstrating the ability to design, develop, and deploy scalable web solutions. Adept at working collaboratively in teams, solving real-world problems, and quickly adapting to new technologies. Eager to contribute to a dynamic tech environment and grow as a Full Stack Developer.

PROJECT DETAILS

Project: Online Book Review System

Project Description:

Designed and developed a responsive web application that allows users to browse, review, and rate books. The application features user authentication, book listing, review submission, and search functionality.

◆ Frontend:

- Built using HTML, CSS, and Angular.
- Implemented form validations, dynamic content rendering, and responsive UI using Bootstrap.
- Integrated with backend using RESTful APIs

◆ Backend:

- Developed RESTful APIs using Java Spring Boot.
- Implemented CRUD operations for books and reviews.
- Handled user login and registration using Spring Security.

◆ Database:

- Used MySQL to store user data, books, and reviews.
- Created and managed relational tables with foreign key constraints.

◆ Key Features:

- User Registration & Login
- Add/View Book Reviews
- Book Search by Title/Author
- Responsive Web Design
